

Dear Mrs. Bond,

It has come to my attention that Daniel has been found in possession of Marijuana. I understand the local police issued him a ticket on May 8, 2005. Daniel will be responsible for paying these charges.

Daniel has no previous incidences of drug use in his file, however any abuse of an illegal narcotic must be taken seriously. I am recommending you receive some specialized training and that Daniel visit a Counseling Physiologist that specializes in addictions counseling. Please insure that you document this incident and course of action in Daniel's Log Book.

Sincerely,

Amile Yogana
Daniel's Social Worker
