

*Dear Stan Hagen,*

*Rosemary's doctor, Dr. Ash, has recommend that she obtain a MedicAlert bracelet. The bracelet would inform emergency workers of her allergy to penicillin.*

*You had previously spoken to me about the possibility of acquiring funds to pay for this bracelet. Although it is costly, there is no coverage we can provide you with. The funds for her bracelet must budgeted into your regular care payments. I can help you look over your budget to accommodate this purchase. Dr. Ash says this purchase should be a priority and would like to meet with Rosemary following the purchase.*

*Sincerely,*

*Maria Brant,  
Resource Worker*
