Dear Ms. Spence:

Thank you for enquiring about Cory. He has become a key member of my family, as well as a bit of a media star. He has been interviewed on CBC Morning Show as well as "As It Happens" and I am attaching a transcript for your files.

Cory has traveled and met people in Port Hardy, Campbell River, Ucluelet, Port Alberni and Long Beach. While on the West Coast of the island, he was introduced to aboriginal carvers, and of course we've have taken extensive photos. Cory has his own BLOG on my website, ([www.susanbricemla.bc.ca](http://www.susanbricemla.bc.ca)) and I report his progress to interested folks.

I attended the FASD conference held recently in Victoria and discussed Cory's specific health issues with renowned experts and other families sharing the same issues.

Cory's social life has included a Valentine Party and a baby shower where he and his story received much interest.

We will continue to seek out education on supports such as Neonatal Abstinence Syndrome.

Sincerely,

A handwritten signature in black ink that reads "Susan Brice". The signature is fluid and cursive.
