

Dear Linda Reid,

On advice of Meghan's doctor, we would like to make arrangements to continue assessing Meghan for possible autism. Although an initial test has been completed, the second test should be lengthier and could take two or three days.

Please contact myself at your earliest convenience so that we can plan for these assessments. An updated report from you on Meghan's progress and over-all health will help the doctors to make a more thorough assessment. I will be happy to assist you in completing this report.

Sincerely,

Eliza Gregory
Guardianship Worker
